

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office

MAY 27 1959

Returned to applicant for correction

Corrected application filed

Map filed

JUN 1 1959

The applicant Raymond V. and Lanore E. Jones
 of Las Vegas, County of Clark
 State of Nevada, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Las Vegas Artesian Basin (underground source)
Name of stream, lake or other source.

2. The amount of water applied for is 0.20 second-feet.
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.

3. The water to be used for Air-conditioning - heating and cooling
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated)

(b) Stockwater (state number and kinds of animals to be watered)

(c) Other use (describe fully under "No. 11. Remarks")

(d) Power:

(1) Horsepower developed

NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 21, Township 21 South, Range 61

(2) Point of return of water to stream East, M.D.B.&M., or at a point from which the NW $\frac{1}{4}$ corner of said Section 21 bears North 28° 54' 27" West a distance of 950.0 feet.

5. The water is to be diverted from its source at the following point: NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 21, Town-

ship 21 South, Range 61 East, M.D.B.&M., or at a point from which the NW $\frac{1}{4}$
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,

corner of said Section 21 bears North 27° 04' 27" West a distance of
it should be stated. 950.50 feet.

6. Place of use NW $\frac{1}{4}$ SW $\frac{1}{4}$ Section 21, Township 21 South, Range 61 East, M.D.B.&M.
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1st and end about December 31st, of each year.
Month Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans

and specifications of your diversion or storage works.) These wells will be drilled to a

depth of approximately 100 feet, and will be cased and cemented to this

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

depth with perforations in both wells at the same level.

9. Estimated cost of works..... \$3000.00
10. Estimated time required to construct works..... 60 days
11. Remarks These wells are to be used as air-conditioning wells, the source well and the return well will both be cased and cemented down approximately 100 feet. The water will be taken from the source well and piped through the air-conditioning unit and returned to the source through the return well at the same level without consuming any of the water. These wells will be used for air-conditioning (heating and cooling) in conjunction with the operation of a motel.

FORFEITED

ORDER NO. 67N

DATE 3-10-77

APPROVAL

OF STATE ENGINEER

By..... s/ L. E. Tyson

L. E. Tyson - State Water Rights Surveyor

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore the State retains the right to regulate the use of the water herein granted at any and all times. It is understood that the use is non-consumptive and is for air-conditioning. It is further understood that the water be returned through a return well to the same aquifer from which it is obtained and the perforations in the return well be so constructed to meet this condition; that the system be a closed system so that no pollution can occur and that if there is faulty construction of the wells or system so as to cause pollution to the ground water, the State Engineer is empowered to cause the wells to be plugged.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.20..... cubic feet per second.

Actual construction work shall begin on or before..... April 12, 1960

Proof of commencement of work shall be filed before..... May 12, 1960

Work must be prosecuted with reasonable diligence and be completed on or before..... April 12, 1961

Proof of completion of work shall be filed before..... May 12, 1961

Application of water to beneficial use shall be made on or before..... April 12, 1961

Proof of the application of water to beneficial use shall be filed on or before..... May 12, 1961

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed..... MAY 19 1960

Completion of work filed..... MAY 31 1961

Proof of beneficial use filed..... MAY 31 1961
